

# MAPPING DOCUMENT

## Food Processing Sector Supplement / G3.1 Guidelines Mapping Document

This document is designed for organizations that intend to use the **Food Processing Sector Supplement (FPSS)**, released in March 2010 and based on GRI's **G3 Guidelines**, in combination with the GRI's **G3.1 Guidelines**, released in March 2011. The **G3.1 Guidelines** feature a range of new disclosures, adjusted disclosure requirements applied to the G3 version of the disclosures, and revised contextual content to assist reporters.

The following table provides an overview of: (i) where the **FPSS** provides sector-specific guidance *in addition to* the **G3 Guidelines**, and (ii) differences between the **G3** and **G3.1 Guidelines**. All sector specific guidance provided by the **FPSS** is reflected. Those G3 disclosures *not* listed in the table remain unchanged. Please refer to the **FPSS** and **G3.1 Guidelines**, including the Indicator Protocols, for full details.

		FPSS based on G3 Guidelines	G3.1 Guidelines		NOTES
			New disclosures on Management Approach, Aspect or Performance Indicators	Adjusted data requirements / Revised content
